

## PANORAMA MICRON

panoRama Micron 10540 is a high-quality, self-adhesive window film specially designed for long-term applications. The product offers an impressive balance between functionality and aesthetics. With a 40% open area and a generous 60% printable area, it opens up versatile design possibilities.

The innovative micro-perforation pattern ensures not only excellent contrast but also outstanding print quality. This allows for a precise and vivid presentation of graphics and images, making the result more appealing and impressive. The finesse of the micro-perforation pattern also provides enhanced colour emphasis, helping to make your messages and designs stand out even more.

### Durability

Up to 5 years vertical exposure at mid European conditions. Tack may increase over time. Not to be applied on: fresh paint or ink, polycarbonate, certain PVC (no exhaustive list). For critical substrates, please test prior to application.

### Printing method

Solvent, eco-solvent, UV curable inks, screen printing and latex inks.

### Shelf life

1 year, stored at +15 to +20° C (59°F to 68°F) and relative humidity between 20% and 70%. In use at +5°C to +40°C (+41°F to +104°F) and relative humidity between 30% and 70%.

### Warranty

Continental Grafix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the technical specification sheets. We will replace or refund the price of any Continental Grafix materials found to not meet our product specifications. In no case shall Continental Grafix be liable for any direct, indirect, or consequential damages, including labor or non-Continental Grafix materials charges. The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specific applications.

### Uses

- Shop windows
- Building wraps
- Rear or side windows of busses
- Rear windows of cars
- All long-term applications

### Features & Benefit

- Maximum contrast and great visibility (due to perfect perforation pattern)
- Excellent removability also after long-term application
- Calendered vinyl features great dimension stability
- Designed to be combined with the over laminate panoRama Cast or Protect (slight- curved and flat surfaces)

## Technical information

panorama Micron

Size	Width: 1.372 m    Length: 25.00 m, 50.00 m
